Conclusion

Introduction

I used to believe that people who earned \$50,000 or \$100,000 in a single month had something I didn't, more talent, a better education, better genes. Or maybe they were just luckier than me.

But when it happened to me, again and again, I began to see money for what it truly is.

Money is a mirror of our energy. It is a visual, visceral reflection of our inner world.

Most people don't believe creating this type of money is possible; not because they're incapable of creating it, but because they've been conditioned into poverty thinking instead of prosperity thinking.

We're taught to expect limits, not abundance. We're taught to settle for just enough, instead

of opening to the divine flow, or overflow, of prosperity lining up at our door.

Prosperity is patiently waiting for us to open that door, not to test us, but simply to delight us!

As much as they might *want* to believe it, many people can't imagine that someone ordinary, someone just like them, could receive that kind of money.

But the truth is: they can.

In fact, people do. All day. Every day. All over the world. And many are creating far more than \$100,000 a month.

Regular people are creating extraordinary wealth, not because they're lucky or special, but because they're aligned with the loving,

universal Force that responds to faith and belief.

They've tuned in to the energy of abundance and opened themselves to its effortless, endless flow.

This sample is just the beginning of your journey to abundance. In the full eBook, [*Money, Abundance and the Law of Attraction*](#), you'll discover simple, practical ways to welcome the infinite flow of prosperity that's waiting for you.
