## Introduction

I used to believe that people who earned \$50,000 or \$100,000 in a single month had something I didn't, more talent, a better education, better genes. Or maybe they were just luckier than me.

But when it happened to me, again and again, I began to see money for what it truly is.

Money is a mirror of our energy. It is a visual, visceral reflection of our inner world.

Most people don't believe creating this type of money is possible; not because they're incapable of creating it, but because they've been conditioned into poverty thinking instead of prosperity thinking.

FROM CHAPTER 3

# **Aligning with The Force for Unlimited Money and Abundance**

This passage closes with a story about an unexpected gift, then offers a simple three-step practice for daily life.

God's gifts are without price. This lady was willing to pay an excessive price for the glasses, but she got them as a gift.

Neville truly believed and was living proof that when we know what we want, we can get it.

Aligning with universal energies to manifest money, abundance or any heartfelt desire is a lot like tuning into a specific radio station.

When we dial in often enough, we become adept at hitting the right frequency and removing the static.

Tuning into the God Source is powerful beyond imagination. Its power is often overlooked due to its utter simplicity.

To align with the Force in your own life, try these three simple steps.

Think of this as a daily ritual that not only connects you with money and abundance, but also opens your life to well-being, love, joy, meaningful relationships, and opportunities that unfold in perfect Divine order.

1. Recognize that God, the Force, the energy of life, whatever name you give it, is the only true presence and power. This energy is not separate from you; it is the very life moving through you.

2. Realize that everything you are, and everything you see is an expression of the Force. The more you remember this, the more connected you will feel.

3. Two or three times a day, pause, breathe, and affirm: *“God is all there is. The Force*

*flows through me and around me. I am part of it, and it is part of me.”* Let this awareness sink in until you feel grounded in it.

As you incorporate these steps into your daily life, you'll see that the Force is not only within you but also working through you via the people and circumstances you encounter.

That's when alignment turns into flow, and flow turns into abundance.

FROM CHAPTER 9

# Becoming a Channel for More

Here are two of the book's affirmative prayers: one for direction and purpose, and one for wealth and abundance.

The following affirmative prayers will help you along the way. They are a mix from Dr Murphy, Dr Ponder, Florence Scovel Shinn, and Neville that I have put together over the years.

In saying these affirmative prayers, take Dr Murphy's advice:

---

*Picture these truths sinking into your subconscious mind. Picture them going from your conscious to your subconscious like seeds you are depositing in the soil.*

---

You can say these prayers for yourself or for a loved one. I've written them in the first person, but if you'd like to say them on behalf of someone else, simply substitute their name.

**For Life Direction and Purpose:** This first prayer is centered on divine guidance and unfolding purpose. It's especially helpful when you're seeking clarity about your path.

*There is a divine plan for my life which is falling perfectly into place now. God reveals to me original and wonderful ideas that bless humanity in countless ways. I am a channel for Divine Energy. God flows through me as harmony, health, peace, joy, wholeness, beauty and abundance. I am Divinely guided in all my ways. I surrender myself to God, and I wish for all the blessings of life. God is guiding, protecting and prospering me now.*

**For Wealth and Abundance:** Here's a prayer for inviting more prosperity and flow into your life. It helps shift your mindset to see God as the limitless source of supply.

*I am now writing in my subconscious mind the idea of God's wealth. God is the source of my supply. All my needs are met at every moment of time and point of space. God's wealth flows freely, joyously and endlessly into my life. I give thanks for God's riches, forever circulating in my life. It is my right to be rich, happy and successful. Money flows to me freely, opulently and endlessly. I am forever conscious of my true worth. I give of my talents freely and I am wonderfully blessed financially. It is wonderful.*
